

Juan Reyes

Guitar concertist

Juan Reyes, born in Barcelona, but Majorcan by adoption, came to the island to give some concerts in 1979.

After that he left the island for a few years since to work with the best Spanish guitarist MAESTRO PACO DE LUCIA.

He were almost 20 years by the Maestro's side, acting as his right-hand man and partner in the company DE LUCIA GESTIÓN SL wich were created between the two of them.

At present, after Paco's death, he returned to the Island to rebegin his own concerts in the Majorcan paradise.

Right now he is having one of his best moments musical and artisticaly, his answer when they ask, what do you work for? As a musician and what does he play? With his heart and soul I sincerely believe that Juan, his main facet is to transmit, when his guitar sounds he usually shakes the most sensitive.
